

Bonnie and I would like to thank everyone involved with Farm Rescue for helping us after my accident in April, especially Charlie Hardie for getting it all started.

I know the spring was hard to put everything and everyone together between the rains to plant my soybeans, but we are very thankful for the help to harvest my wheat. We had a nice sunshine day to complete my small grain harvest.

Thank you for the nice phone calls from your office staff and the personal phone visit with Bill Gross.

Dennis + Bonnie Hamling

P.S. The bones in my foot are healing and I am back to wearing my shoes again !!!
